PROJECTS

Discord Bot

Dec. 2018 - Present

A Chat/Entertainment/Utility Bot for the Discord application.

Programming Exam Manager

Feb. 2019 - Apr. 2019

A website that allows an instructor to create Python-related programming questions and exams for a student, a student to take the exam, and the instructor to release grades.

Portfolio Website

Apr. 2019 - May 2019

A personal web page cleanly exhibiting all of my projects in a sleek design.

Personal Pong Game

Apr. 2019 - Present

My own version of the classic game Pong, in which two players hit a projectile towards each other with the intention of having the projectile pass the other player.

Music Sharing Application

Apr. 2019 - Present

A mobile and web application with a heavy focus on social aspects, allowing users to be able to share, discover, and upload music.

Project GG

June 2019 - Present

A collaboration on an application that uses the React framework to develop an intuitive and useful social media application tailored to fans of video games.
